To help our government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. What this means for you (and joint account holders): When you open an account we will ask your name, address, date of birth and other information that allows us to identify you. We will also ask to see your driver's license, passport or other identifying documents when you come to the bank to open your account(s).
